Oregonians Chooses SunCorp as Corporate Solution

Westminster, CO - Oregonians Credit Union of Milwaukie, Oregon, with assets of \$282 million, has chosen SunCorp as their partner for cooperative financial services, replacing services previously provided by Western Bridge Corporate. Established in 1936, Oregonians Credit Union provides credit union services to over 3,000 employer and association groups throughout the state of Oregon. They offer a full range of financial products and services with warm and friendly service.

Chuck Garner, CEO of Oregonians, commented on their decision to join SunCorp:

"We feel strongly that a corporate credit union in the West is important to us and the movement. SunCorp is the largest surviving corporate in the West with an array of services that closely match the services we utilize at WesCorp with pricing that is very close to that of WesCorp.

We feel the business plan is realistic and viable, and were impressed with the support of the current members in rebuilding the capital. From our first contact through the process of making a decision, we have found staff to be very attentive to detail, knowledgeable and quick to respond to any questions and requests."

Credit unions throughout the West are exploring their options for corporate services. SunCorp is currently conducting Town Hall Meetings and Webinars for Western credit unions to visit with SunCorp's Executive Team and learn about the benefits of working with SunCorp as their cooperative partner.

To learn more about SunCorp's cooperative financial solutions for credit unions throughout the West, contact a Business Development Officer at bdo@suncorp.coop.

To register for a SunCorp Town Hall Meeting, go to www.suncorp.coop.

SunCorp is System United Corporate Federal Credit Union, a full-service financial cooperative serving credit unions, CUSOs, and credit union associations throughout the Western states. It provides payment services, free lines-of-credit, and investments delivered with superior member service and the benefits of cooperative ownership and pricing.
