

## **Stuff for Students**

### **9News Asked and SunCorp Employees Answered**

Denver, Colorado (August 20, 2010) In August, SunCorp supported 9News and Volunteers of America in their efforts to provide school supplies for over 22 area school districts.

More than 90% of SunCorp's employees participated. Over a two week period, SunCorp collected backpacks filled with every item 9News needed. Monetary donations were also received.

According to Lynn Baalman, VP Human Resources, Facilities & Security, "We are a small company with a big heart! While we generally have good participation in any type of community or other charitable event that we sponsor, the response level for this event was exceptional!"

SunCorp is one of the top ten corporate credit unions in the nation, providing financial services to credit unions and Credit Union Service Organizations in 20 states. SunCorp operates in Denver, Colorado. For more information, please visit [www.suncorp.coop](http://www.suncorp.coop).
